

SHQS SWIMMING POOL PUMP

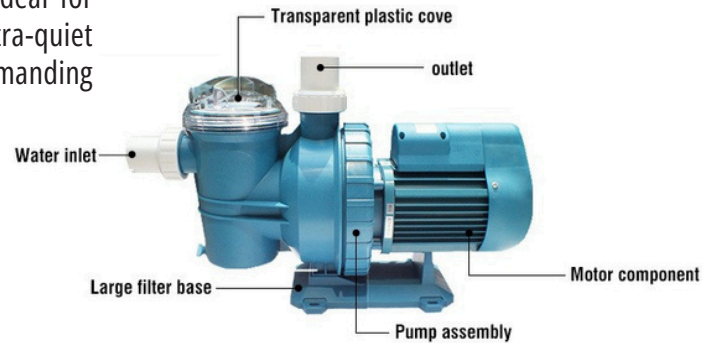

Application

The hydraulic swimming pool water pump is designed for exceptional performance in both high and medium head installations, making it ideal for large-scale swimming pools and commercial spas. Engineered for ultra-quiet operation, rapid priming, and high flow rates, this pump meets the demanding standards of pool builders, service professionals, and end users alike.

Technical Data

Hydraulic swimming pool water pump Features:

- Superior high and medium head performance.
- More efficient and dependable than virtually any other pumps.
- Improved 1-1/2, 2, 3 and 3-1/2 HP flow.
- Ultra rapid priming.
- Ultra quiet.
- Anti spin-off impeller.
- Giant strainer basket.
- Stainless steel port reinforcement.

Technical Data

MODEL	Rated Power		Voltage (V)	Max Lift (M)	Max Flow (M3/h)	Pipe Diameter	
	KW	HP				(mm)	(Inch)
SHQS series Water Faery swimming pool water pump							
SHQS 370	0.37	0.5	220V/50Hz	8	11	50	1.5
